Retinal eye screening

**JONES COUNTY HEALTH
DEPARTMENT**

This is open to all diabetics that are uninsured as well as any adult over the age of 18 without insurance that has risk factors.

Risk factors include: Obesity, family history of diabetes-parents, grandparents, siblings, have high blood pressure, African Americans, Hispanics

This is not a visual acuity test, this is a test that looks at the health of the eyeball. If you need a visual acuity test, JCHD will be able to offer that as well with a scheduled appointment

Results will be available in 4-6 weeks and anyone that fails the screening will be given a voucher to go to an eye doctor for a more in-depth exam

We will need a full name and date of birth in order to do your exam

Exams should be completed in 20 minutes

Call to schedule your time to avoid extended wait times
